Customer 01

People who want to do fitness

Customers can not only customize their own fitness project on the website but also search single courses for each part of body. After finishing courses they can share their feeling on the community.

Customer 02

Fitness coaches

After verifying, the website can show the map of coaches nearby. Coaches can post their personal information and enroll students.

Customer 03

Fitness article writers

Fitness article writers can post fitness articles in the community of the website just like blog.

Impacts

- 01 Customers will have an access to take online fitness courses for free
- 02 Community and fitness history will motivate customers.
- 03 Provide a easier way to find fitness partners.
